

### **BUSH KINDER PROGRAM: PLAY BENEFITS AND RISK POLICY**

#### **PURPOSE**

This policy aims to:

• Detail the benefits of outdoor play in the Bush Kinder environment, including the types of activities to be undertaken.

ABN: 26 532 343 930

Telephone: 9841 9556

- Give Parents/Guardians comfort that while aiming to develop the children's selfawareness in managing risks and undertaking challenges, that appropriate supervision is provided to ensure the safety and wellbeing of participants at all times.
- Detail procedures for staff and volunteers to ensure that children are appropriately supervised and assisted during play and to ensure the safety of participants.

#### **POLICY STATEMENT**

#### 1.Values

Gum Nut Gully Preschool is committed to delivering a Bush Kinder program which:

- Offers children opportunities to safely explore rich, diverse natural play environments while developing self-confidence, teamwork and social skills and an understanding of their environment.
- Allows children, through play, to experience challenge and develop self-awareness in managing risk according to ability and confidence.
- Fosters child-led play at the child's pace.
- Gives participants freedom to explore using multiple senses which are fundamental for encouraging creative, diverse and imaginative play.

# 2. Scope

This policy applies to children, parents/guardians, staff, committee members, authorized persons, volunteer helpers and students on placement with Gum Nut Gully Preschool.

### 3. Background and Legislation

In modern society, opportunities for free, outdoor play can be limited and the valuable experience of free play in the outdoors, learning to accept challenges and taking considered risks is one that is not available to all children. Some educational leaders feel that we have developed an over reliance on digital and electronic sources for recreation, learning and socialising.

ABN: 26 532 343 930

Telephone: 9841 9556

Gum Nut Gully Preschool Bush Kinder program will support young children to develop responsibility for themselves and others. It will encourage early risk management strategies that will ensure that young children start to consider the consequences of their actions, for themselves and for others and will support the children in taking on challenges and accepting responsibility. This program will support the children in becoming independent, responsible and motivated learners.

Under this policy, climbing, running, rolling and balancing will all be available to children, with such support and guidance as is deemed necessary for safety. At all times, the staff will be guided by the expert knowledge of the Manningham Council Park Rangers in relation to hazards. In a Bush Kinder setting children learn important lessons of risky play.

# Relevant legislation includes but is not limited to:

- Occupational Health and Safety Act 2004
- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011 (The Regulations) and the National Quality Standard (Schedule 1 of the Regulations).

## 4. Definitions

**Appropriate clothing:** (refer Protective Clothing Policy)

**Footwear**: It is important that children wear appropriate footwear – GUMBOOTS are deemed the most appropriate footwear to protect from potential snake bites.

**Play**: Play activities at Bush Kinder are diverse but typical activities and goals may include (though not limited to): **See Attachment 1** 

**Tree Climbing:** See **Attachment 2** for Risk Benefit Analysis and Strategies to mitigate Risk. Note this activity has been singled out as it is an activity likely to cause unease amongst parents/guardians.

**Water Play:** Water play during Bush Kinder will take place from time to time in cases where water occurs naturally e.g. looking at and playing with puddles; play in the rain and on walks (rainproof clothing to be worn). There are some bodies of water in the bush land which the children may encounter during supervised walks. Children will be taught an awareness of bodies of water and associated risks, and will learn appropriate behavior around water. See **Attachment 3** for Risk Benefit Analysis and Strategies to Mitigate Risks for Water.

#### **Procedures - General**

### The Approved Provider is responsible for:

- implementing and maintaining a Play Benefit & Risk Policy which provides clarity
  to parents/guardians and staff as to types of activities the children may be
  undertaking in Bush Kinder, while highlighting the benefits of these activities,
  including improved self esteem, co-operation and ability to assess and respond to
  risks;
- providing a safe environment for all participants in the Bush Kinder program;
- ensuring that all parents;/guardians are aware of this policy and are provided access to the policy at orientation sessions, in written Bush Kinder material and on the preschool website, and made available upon request;
- ensuring staff and volunteers are appropriately educated on procedures detailed in this policy.

### The Nominated Supervisor and Certified Supervisors are responsible for:

- supervising children at all times and ensuring their safety;
- assessing potential tree climbing trees for sturdiness in liaison with Manningham council park rangers
- ensuring strategies to mitigate the risks and hazards of tree climbing (as set out in Attachment 2) are carried out as required;
- educating the children on water risks, providing an awareness of bodies of water and associated risks, and teaching them appropriate behavior around water.
   Ensure strategies to mitigate risks and hazards in relation to water (as set out in Attachment 2) are carried out as required;
- encouraging the children to do things for themselves e.g. putting on clothes, climbing and holding back branches, assessing risk through conversation with staff;
- talking and listening to the children as much as possible;
- offering help and encouragement during play whenever needed
- encouraging the children during play to help each other, share and to solve problems together, and give praise when this occurs;

 encouraging children during play to reflect on how they, and their skills, have developed

ABN: 26 532 343 930

Telephone: 9841 9556

- pointing out features, insects, plants, weather, sounds etc that children may not have noticed;
- taking opportunities to reinforce safety routines applicable to play where ever possible.

# Parents/guardians are responsible for:

- ensuring protective and appropriate clothing is worn to Bush Kinder by their child in line with this policy, including closed toe footwear-a quality pair of gumboots to facilitate effective tree/log climbing and balancing on uneven surfaces;
- reinforcing appropriate safety and behavior strategies;
- reading and being familiar with the policy; bringing relevant issues to the attention of both staff and committee.

#### **EVALUATION**

In order to assess whether the policy has achieved the values and purposes the Committee of Management will:

Where deemed appropriate, encourage feedback regarding this policy and its implementation with parents/guardians of children participating in the Bush Kinder program. This can be facilitated through discussions and the annual parent satisfaction survey.

Ask staff to share their experiences and observations in relation to the effectiveness of this policy.

Regularly review the policy and centre practices to ensure they are compliant with any new legislation, research or best practice procedures.

Notify parents/guardians at least 14 days before making any substantial changes to this policy, which would impact on the supervision or care of children.

#### **AUTHORISATION**

This policy was approved by the Gum Nut Gully Preschool Committee of Management on 22/03/2022.

# **Attachments**

**Attachments 1:** Play benefits

**Attachments 2:** Tree Climbing Risk Benefit Analysis and Strategies to Mitigate Risk

**Attachments 3:** Exposure to Water Risk Benefit/Analysis

**Attachment 1:** Play benefits of Bush Kinder

ACTIVITY	DEVELOPMENTAL BENEFIT
----------	-----------------------

Playing imaginative games using the resources nature provides.	Open ended learning allows children to explore at their own pace and with their own challenges.
Role Play	Shared imagination, drama, working with others, sharing ideas, recollection of models of behavior
Building shelters or other large structures from branches, with the help of peers and adults	This requires setting goals, planning, teamwork. Emphasis will also be placed on returning natural structures to where we found them at the end of a bush kinder session
Counting found objects, categorizing found objects, finding patterns in nature	Exploring mathematical concepts, visual discrimination
Observing changes in nature	Making observations, predicting patterns and outcomes
Arranging items to make an ephemeral picture or installation	Using natural materials creatively, creating with an emphasis on the 'doing' rather than the outcome; Using photography to record and display outcomes (storypark/ photos)
Photography	Using digital technology to record and share their learning experiences
Drawing from life	Creative, observation of flora, fauna and natural surroundings
Climbing trees, walking on logs and rocks	Gross motor co-ordination; body awareness in space and movement; understanding risk and considering actions
Walking within the parkland	Improve physical fitness and stamina; Making choices about activities for the day
Exploring or reflecting alone	Benefits of personal reflection and self- awareness
Play involving effects of water on our environment e.g puddles, mud play	Awareness of effects of weather on environment; science: changes; properties of mud, soil.
Using found items as tools	Becoming creative and inventive to investigate the environment

# **Attachment 2:** Tree Climbing Risk Benefit Analysis:

Source: 'Benefit-Risk Assessment of Tree Climbing' Mind Stretchers Pty Ltd (October

ABN: 26 532 343 930

Telephone: 9841 9556

2009)

# **Benefits of Tree Climbing**

- 1. Knowledge: tree characteristics (bark/wood./branches), seasonal changes, weather implications
- 2. Develop physical motor skills
- 3. Build self-confidence
- 4. Group co-operation
- 5. Group awareness
- 6. Aesthetics/spirituality

# Risks/Hazards and Strategies to Mitigate:

HAZARD	PRECAUTION
Material on the floor beneath the tree	<ul> <li>Inform the children of the hazard to allow self evaluation</li> <li>Remove where appropriate (staff/children)</li> </ul>
Dead wood	<ul> <li>Remove dead wood branches when found</li> <li>Inform children of the fragility of dead wood – likely to break, encourage children to monitor</li> </ul>
Slippery surfaces	<ul> <li>Check condition of climbing surfaces prior to activity</li> <li>Evaluate weather conditions linked to hazard and desist if necessary</li> <li>Inform children of the hazards and allow self monitoring</li> </ul>
Drop heights	<ul> <li>Children self assess abilities</li> <li>Children and staff monitor landing spaces for obstacles and remove or change landing location as required</li> <li>Staff support children as required/requested – holding hands etc.</li> </ul>
Protruding branches	<ul> <li>Children self assess climbing location</li> <li>Change climbing location if deemed too high a risk</li> </ul>

# **Attachment 3:** Exposure to Water Risk/Benefit Analysis

Source: "Benefit-Risk Assessment of Pond and stream in Auchlone woodland'. Mind Stretchers Pty Ltd (October 2010)

# Benefits of Exposure to Water (Wetlands, Puddles, creek)

1. Children become aware of open water and associated risks and learn appropriate behavior around water.

ABN: 26 532 343 930

Telephone: 9841 9556

- 2. Awareness of seasonal and weather changes to still water and running water.
- 3. Group care and awareness
- 4. Children self risk assess open water
- 5. Raised awareness and appreciation of wild life on and near wetlands, river.
- 6. Calming effect of being near open water
- 7. Group co-operation
- 8. Group awareness

# **Risks/Hazards and Strategies to Mitigate:**

HAZARD	PRECAUTION
Open water – Wetlands, creek, Puddles (naturally occurring):  Falling in the water, drowning	<ul> <li>Staff discuss the dangers of deep water with children</li> <li>Water safety presentations done at preschool during term 1 in preparation for water safety</li> <li>Staff have a raised awareness of the risks of wetlands, creek, large puddles of water. Children have an awareness of the risks having done their own risk assessments of the wetlands, creek, dip area</li> <li>Children have been showed clearly defined boundaries for free play area which does not include the wetlands or creek areas. Children will ONLY be allowed access around the wetlands or creek when on a group tour, never during free play.</li> <li>Children are monitored and supervised by staff who are extra vigilant in the vicinity of water and staff/child ratios are strictly adhered to</li> <li>Adults count children at regular intervals while children are engaged in activities in the vicinity of water</li> </ul>
Slippery banks near wetlands and potential for the area to fill with water after heavy rain:  Children falling in	<ul> <li>Raise awareness of slippery surfaces near waters edge</li> <li>Staff will assess the suitability of the area on a day to day basis. Observations of the wetlands and creek bed can be monitored at a safe distance.</li> </ul>

	<ul> <li>No access to banks after heavy rain or flooding, and on recommendation by park ranger</li> </ul>
Contaminated water:  Illness when consumed	<ul> <li>Children have limited access to wetlands when filled with water. Staff raise awareness of contamination.</li> <li>Children wash hands in clean running water after contact with wetland water.</li> </ul>

ABN: 26 532 343 930 Telephone: 9841 9556
